

COMPANY PROFILE

Innovate | Integrate | Operate

OSI Consulting is a leading information technology services firm driven to create business value for our customers through the innovative integration of advanced technologies. Clients worldwide benefit from our agile approach toward implementing and sustaining global technology solutions.

Headquartered in Woodland Hills, California, OSI leverages a strong foundation of expertise with enterprise software, databases, and infrastructure to provide customers with the skills required for today's sophisticated information systems. Since 1993, OSI has helped hundreds of clients successfully master enterprise IT initiatives by transforming business processes, managing complex data, and integrating and externalizing applications.

Scale, Experience and Capability

- Global operations with offices across the U.S., Canada, and Asia
- Over 350 technology professionals worldwide
- Over 210 customers worldwide in a variety of industries

Partnerships That Forge Solutions

To offer our customers best-in-class solutions for their unique business needs, OSI has developed close alliances with key technology providers including the Oracle Corporation and the EMC Corporation. As one of a select number of top echelon partners, OSI has cultivated and maintained these relationships to deliver world-class, fully integrated solutions around the world.

where information lives®

Innovate. Integrate. Operate.

OSI Consulting delivers on a vision based on a complete understanding of the technology lifecycle – focusing on innovation, integration, and operation of mission-critical information systems. We have the knowledge and expertise to promote new innovative solutions or new approaches to existing systems; the proven ability to integrate the most complex systems, supporting automation and the fluid access and exchange of information within and outside of your company; and the resources required to cost-effectively sustain complex environments throughout their lifecycle of operation.
